Scope of this Report

The following groups of public libraries were invited to respond to the third annual Public Library Data Service Questionnaire:

❑ All libraries which participated in the 1989 Public Library Data Service Statistical Report.

❑ All libraries previously included in statistical reports of the Urban Libraries Council or "Statistics of Public Libraries in the United States and Canada Serving 100,000 Population or More" previously published by the Allen County Public Library.

❑ A randomly selected group of 400 libraries serving populations of 100,000 or fewer.

❑ All public libraries which contributed to the Public Library Development Project.

❑ Any other public libraries requesting inclusion.

Data from libraries in these groups may not be in the following report if the library did not return the questionnaire or if it was returned too late for inclusion.

This 1990 report includes data from 603 public libraries, 103 more than 1989 report.

II. Financial Information

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order.

Responses to these following questionnaire items are represented in the Financial Information tables.

Population Served - See Section I for definition

Derivative numbers were determined in the following manner:

$$\text{Expenditures per capita} = \frac{\text{Total operating expenditures}}{\text{Population of legal service area}}$$

$$\text{Salaries as a percent of expenditures} = \frac{\text{Expenditures for salaries and wages}}{\text{Total operating expenditures}}$$

$$\text{Materials as a percent of expenditures} = \frac{\text{Expenditures for library materials}}{\text{Total operating expenditures}}$$

$$\text{Materials expenditures per capita} = \frac{\text{Expenditure for library materials}}{\text{Population of legal service area}}$$

Unless otherwise noted, all figures reported on this questionnaire should be accurate as of the end of the most recently completed fiscal year.

1. **Ending date for latest fiscal year.** __/__/__

For Items 8 and 9 report the current salary regardless of fiscal year.

III. Library Resources and Community Measures

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order.

Responses to the following questionnaire items are represented in the Library Resources and Community Measures tables.

D. COMMUNITY MEASURES

Items 24-28 below are optional. Age and education measures were selected for inclusion in the Public Library Data Service because they are known to be related to library service. These particular categories of age and education were selected because they are available for most legal service areas from the County and City Data Book *(CCDB). If you can provide the data easily from CCDB or a reliable local source, please do so. If your legal service area is not shown in CCDB or a reliable local source or if that source uses different subcategories for age (Items 24-26) and education (Items 27-28), please check the appropriate box in Item 23 and go on to the next page of the questionnaire.*

23. Availability of data for community measures. Please check one.

IV. Annual Use Figures

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order

Responses to the following questionnaire items are represented in the Annual Use Figures tables.

Please provide the latest data available regardless of fiscal year.

The data elements and output measures listed below are described in Output Measures for Public Libraries *(OMPL). Page references are given to data collection procedures in the second edition of this work (OMPL2, ALA, 1987). It is expected that you have followed these procedures or those described in the first edition (ALA, 1982). For Items 29-33 report separate figures for the central library (if any) and for all branches as well as a total. If you do not have a central library, put N/A in the space. For Items 34-39 report for the library as a whole (i.e., the central library and all branches). If an item is not available, mark N/A in the space.*

ANNUAL COUNTS

The following data elements are either exact counts or annual estimates based on counts taken on sample days according to procedures in OMPL. They will be used with population of legal service area to produce per capita measures.

	Central Library	Total for All Branches	Total
29. Annual circulation (OMPL2 p.42-44)	_____	_____	_____
30. Annual in-library materials use (OMPL2 p.44-47)	_____	_____	_____
31. Annual reference transactions (OMPL2 p.65-69)	_____	_____	_____
32. Annual number of library visits (OMPL2 p.37-41)	_____	_____	_____
33. Annual program attendance (OMPL2 p.71-72)	_____	_____	_____

F. INTERLIBRARY LOAN

40. Interlibrary loan. An item of library material, or a copy of the material, is made available by one library to another upon request. It includes both lending and borrowing. The libraries involved in interlibrary loan are *not* under the same library administration.

a. Loans provided to other libraries _____

b. Loans received from other libraries _____

V. Output Measures

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order.

The per capita figures in these tables were determined by dividing the following annual counts by the reported population of the library's legal service area:

- Circulation
- In-Library Use
- Visits
- Reference Transactions
- Holdings

E. OUTPUT MEASURES

Please provide the latest data available regardless of fiscal year.

The data elements and output measures listed below are described in Output Measures for Public Libraries *(OMPL). Page references are given to data collection procedures in the second edition of this work (OMPL2, ALA, 1987). It is expected that you have followed these procedures or those described in the first edition (ALA, 1982). For Items 29-33 report separate figures for the central library (if any) and for all branches as well as a total. If you do not have a central library, put N/A in the space. For Items 34-39 report for the library as a whole (i.e., the central library and all branches). If an item is not available, mark N/A in the space.*

VI. Literacy Economic Development and Local Government Services Survey

To inform discussion and to support decision making at the 1991 White House Conference on libraries and information services, PLA requested information this year on the extent to which PLDS member libraries offered specific services in the areas of literacy, economic development, and local government information. These summary tables only represent services provided by PLDS member libraries and should not be interpreted as an inventory. Other one time questions may be included in the survey in years to come.

PLA has offered to collect data to support and inform discussions at the 1991 White House Conference on Libraries and Information Services and the state level preconferences. Please take a minute to check all the following phrases that describe services provided in your library. Thank you!

CHECK ☑ ALL THAT APPLY;

If you can provide the data easily from CCDB or a reliable local source, please do so. If your legal service area is not shown in CCDB or a reliable local source or if that source uses different subcategories for age (Items 24-26) and education (Items 27-28), please check the appropriate box in Item 23 and go on to the next page of the questionnaire.

Appendix B- Data Coding Decision Guidelines

The following coding rules governed the transfer of data from returned questionnaires to the summaries contained in this report.

General Rules

1. If any item is redefined by the respondent on the questionnaire, enter NA or leave blank. We cannot annotate entries to document exceptions.
2. If two or more responses are entered in one blank, leave blank.

Statistical Rules

Procedures for determining low, high, median, quartiles, mean, and number reporting for a given field:

Values were arranged in ascending order.

The NUMBER REPORTING equals the number of nonzero values.

The LOW equals the first nonzero value in the sequence.

The HIGH equals the last value in the sequence.

If the number reporting is greater than 5, determine the mean and the median.

The MEAN is the sum of all values divided by the NUMBER REPORTING.

The MEDIAN is the middle value in the sequence if there is an odd number of values; if the NUMBER REPORTING is an even number, the MEDIAN is the sum of the values divided by 2.

If the NUMBER REPORTING is greater than 5, then:

The LOWER QUARTILE (25%) is the number reporting divided by 4 and rounded to the nearest whole number to get x. The LOWER QUARTILE is the xth nonzero number in the sequence.

The UPPER QUARTILE (75%) is the number reporting divided by 4 and that number multiplied by 3; the result is rounded to the nearest whole number to get x. The UPPER QUARTILE is the xth nonzero number in the sequence.

Rules Regarding Specific Questions

1. *Fiscal year.* If stated fiscal year ends after the date the questionnaire is completed, assume a typo on the year. Enter earlier date.

10-12. *Staff.* Enter as given, including totals. Do not recompute if line 12 does not equal line 10 plus line 11.

13-22. *Financial Information.* Convert Canadian dollars to American based on one standard rate for the entire report. $1.16 Canadian to $1.00 is to be used.

Enter income and operating expenditures exactly as reported. Do not recompute even if totals are not sums of items as indicated.

29-33. *Annual Counts.* If no branch or central breakouts are given, report items only in "Total" column.

Total circulation - If number reported is more than the sum of the branch library circulation plus the central library circulation, report as given. If it is less, use the sum of the branch and central figures.
